## HUMIC<sup>®</sup> MAXIMIZE POTENTIAL

Ful-Humix L™ is a soluble liquid humic acids product and fast-acting soil conditioner that will help maximize micronutrient uptake.

BioAg's unique manufacturing method retains the products high value and efficacy and makes the humic acids soluble for increased results.

Ful-Humix L is recommended for use in fertigation (drip irrigation or pivot), sprays, at planting, and in hydroponic systems.

Ful-Humix L can be used on all crops and in combination with most organic and synthetic fertilizers. Perform compatibility jar test prior to tank mixing.

For application rates refer to product label.

Application rates will vary by your crop system. Please contact BioAg sales team or your crop advisor for further details.
