

BORO-MINO™

5-0-0 plus BORON

Boro-Mino™

Boro-Mino is a Boron fertilizer that is recommended for use in drip or pivot fertigation, foliar sprays, at planting, and in hydroponic systems. Boro-Mino can be used on all crops and in combination with most organic and synthetic fertilizers. Boro-Mino should be used to correct Boron deficiencies in the crop/soil

Guaranteed Analysis

Total Nitrogen (N).....5%

5% Water Soluble Nitrogen

Boron (B).....10%

Derived from: Soy Protein Hydrolysate and Boric Acid

Mixing/Application Rate:

Mix dry product into desired amount of fertilizer solution at rate of 0.125- 0.5lb/acre as needed to correct Boron deficiency in crop/soil. When tank mixing with other fertilizer products perform a compatibility jar test prior to tank mixing. Suggested rates are for general application purposes and may vary depending on crop and soil type. Consult the BioAg team for specific crops and rates.

Warning: Contains Boron. Do not use on sensitive crops. Use only according to manufacturer's directions. The use of this material on any crops other than those recommended may result in injury.

Storage: Store in cool dry environment keep product in sealed container away from moisture.

Notice: Buyer assumes all risk for use not in accordance with labeled directions.

Caution Statement: Harmful if swallowed. Avoid contact with skin, eyes, open cuts, and sores. Wash hands after use.
