

CAL-MINO™

8-0-0 plus CALCIUM

Cal-Mino™

Cal-Mino is a Nitrogen and Calcium fertilizer. It is a fine, free-flowing, hygroscopic, spray-dried powder that contains amino acids and short polypeptides derived from enzymatic hydrolysis of Soybeans. Cal-Mino can be used on all crops and in combination with most organic and synthetic fertilizers.

Guaranteed Analysis

Total Nitrogen (N).....8%

8% Water Soluble Nitrogen

Calcium (Ca).....10%

Derived from: Soy Protein Hydrolysate, Calcium Carbonate

INDOOR/GREENHOUSE - SOIL/SOILLESS
FOLIAR
FIELD APPLICATION - SOIL FERTILITY
FIELD FOLIAR

10 ml/gal
